buildings; 10 administration buildings; 11 mess halls; approximately 75 support buildings; and numerous miscellaneous sheds.

A former probable barracks section apparently has been dismantled. It originally contained at least 18 buildings each 60 x 25 ft. Only 2 now remain, and they are probably used for support. Training facilities consist of 2 parade grounds, one of which contains an obstacle course. At least 5 trucks were visible in the larger vehicle storage area in [REDACTED]

Based on a figure of 33.6 sq ft per man, this installation could accommodate 10,700 personnel.

An early warning radar site is situated on high ground 2,000 ft south of the installation. It consists of one TOKEN, one SCR-270, one probable ROCK CAKE, and one possible KNIFE REST. [REDACTED] the TOKEN was in operation. The site was cloud covered on [REDACTED] photography.

Approximately 15 miscellaneous support buildings and sheds are associated with the radar site. One van truck was observed in the area
